Vice-President Wilson has been talking very freely to a correspondent of The Cincinnati Commercial. He is reported as saying that when he was elected Vice-President he went to Gen. Grant and told him he ought to remove the obscure men who filled his Cabinet and fill their places, as Lincoln had done, with the greatest men in the land. But the President replied : " Yes, but Lincoln's Cabinet was always fighting, and my Cabinef officers do not fall out." Not discouraged by this profound rejoinder, the Vice-President continued his advice, urging that the ablest man in the country be made Secretary of the Treasury, even if he had to be taken from the Demo-cratte ranks. "After that talk," says Mr. Wilson, "Gen. Grant put in Richardson, a man whom I refused to ac-knowledge as one of the public men of Massichusetts. He never had any influence there, and we lost the key of the position by such a choice as that."

It is hardly to be expected that Gov. Hendricks will take any decided stand on the money question in his forthcoming speech in Ohio. Like Senator Mc-Donald, he will be very likely to say a little on both sides and not much of anything on either. The Terre Haute Journal is evidently a lattle fearful of this, for it thus endeavors to push him off the fence: "Gov. Hendricks's record throughout his whole political life is good, and his private life is unexceptionable, and there is no man in the United States whom we would sooner see honored with the Presidency than Mr. Hendricks. We are convinced that now is his opportunity. If he will throw himself into the Ohio campaign upon the financial issue, and give the people the immense power and assistance that he is capable of giving them, this fact, with his former record upon the greenback issue, will, decidedly and undoubtedly, give him the inside track for the nomination in 1876. We have confidence in his wisdom, and believe that he cannot now fail to see his interest."

Kansas would be a bad place for the "more oney" shouters to visit at this time. The Laurence Journal says: "No man can put his finger on a single place in Kansas where there is business to be don things to be sold-and there is any lack of the needed currency. We called attention the other day to Wichita, great wheat mart of the South-West. There are hundreds of thousands of bushels of wheat there offered for sale. Is there any lack of currency to do the busi-pess? Not at all. Wheat buyers are there by the score with their pockets full of money, ready to buy all that is offered. Take it out on the Kansas Pacific Road, at There is another great wheat market. If currency is lacking to do the busines, there is the spot where the lack ought to be felt. Is it so felt? Let The Chronicle of that place reply. It says: 'There seems to be plenty ti here. From July 20 to August 17 there was brought into this county, through the Abilene Bank, for wheat, \$54,214 12.* So it is all over our State. Wherever there is anything to sell there is no lack of the currency with which to buy. If men have wheat, exitic, pork, bogs, wool, etc., there is plenty of currency for handling them."

There is not a State in the Union of which the same thing is not true. of money in this county when we have anything to bring

These two pieces, as well as Gade's beautiful Overtare "In the High-lands," and the selections in the third Part, are familiar favorites. Mr. Hamerik's second Norse Saits is entirely new, and the Grieg concerte, a very recent composition, has been played here only once before. The is conceived in a much more serious vein than the companion work of the accomplished director of the Baltimore Penbody Concerts which has met with to much favor heretofore. In some respects,—in strength, masculine spirit, and ingenious harmonic treatment, and in strict adherence to the rugged and romantic characteristics of the northern muse,-perhaps also in certain charming contrasts of instrumentation,-No. 2 is superior to its predecessor. Piano and orehestra both have a wonderful task to achieve, but their parts are so deftly interwoven wonderful that very few of the great difficulties of the composition are apparent to the ordinary listener. The playing of the band all through was unusually majestic; and so far as this went, the interpretation was the most brilliant possi-ble. The planist, Mr. S. Liebling, a young man of 16 and a pupil of Franz Bendel, risked a great deal in choosing such an exacting work for his first appearance He made, however, a decided success. His handling of the concerto was more remarkable for delicacy than breadth, and though it was technically smooth and in many passages extremely poetical, we were conscious of Recalled, however, he played an amazingly difficult ar-

OBITUARY.

THE HON. WILLIAM S. SOUTHWORTH.

The Hon. William S. Southworth, formerly of Bennington, Vt., died at the residence of his sou-li-law, the Hon. W. T. Horrobin, in Cohoes, N. Y., last evening. Mr. Southworth was 68 years of ago. He was for-merly law partner of Gov. Hall of Verment, and was one of the most prominent men of that State.

OGDEN HAGGERTY.

'The death of Ogden Haggerty, an old member of the auction and commission trade in this city, was announced yesterday. He began business with his father in 1821 as clerk for the firm of Haggerty, Austin & Co., and in 1834 became a partner with his father in a new 3rm. In 1850 he became senior partner in the firm, the name being changed to Ogden Haggerty & Co., and so continued until his retirement from active business in 1867. He went to Europe a few months ago to improve his failing health and died in Switzerland at the age of 67.

EXCITING REPORTS ABOUT THE BANK OF CALIFORNIA. EFFORTS TO REOPEN THE BANK-THREE MILLIONS

AND A HALF OF THE FUNDS MISAPPROPRIATED BY MR. RALSTON-A FALSE RUMOR OF THE FAIL-URE OF BURLING BROS.-BETTER FEELING IN SAN FRANCISCO.

SAN FRANCISCO, Aug. 31 .- Mr. Sharon was consulted last evening with regard to the Bank of California resuming business. He stated: "We are moving heaven and earth to reopen. It is possible and not improbable that the bank will resume. There is a reasonable probability of it." In reply to a question as to the rumors of an over-issue of stock, the substitution of worthless paper in envelopes which had contained collaterals, and other fraudu lent proceedings, he said: "I know nothing about it. I have not been among the clerks or in the vaults." Mr. Bell, one of the directors, in reply to a similar question last evening, said: "I know

nothing of the kind." The statement that the bank will resume is being used as a factor in the political problem. One of the most prominent directors says directly that all such statements are premature. An effort is being made to reorganize by forming a guarantee fund to liquidate the affairs of the bank and afford means to resume business. The responses of those approached are of an encouraging nature; but nothing can yet be stated definitely. In answer to the question concerning the rumors of fraudulent mismanagement on the part of Mr. Ralston, the gentleman last referred to replied: "All I can say about that is, that Mr. Ralston appropriated the funds of the bank largely to his own use." On being asked if there appeared to be evidence of intentional fraud on Mr. Ralston's part, he replied, "Mr. Ralston got into a scrape and used the funds of the bank to help him-

MR. RAISTON'S MISUSE OF THE FUNDS

It is impossible at present to give any statement worthy of credence as to the assets and liabilities of the Bank of California. The directors themselves do not know the actual state of affairs. This much known positively, that from \$3,000,000 to \$3,500,000 of the assets of the Bank have been very recently abstracted without knowledge of the directors. How this has been done is not known at present. The directors are still busy examining the state of affairs. It is given out that the nominal assets are in the neighbrhood of \$18,000,000, with liabilities of about \$12,000,000. But, from the best information at present obtainable, it is believed that the assets will not be sufficient to pay depositors over eighty cents on the dollar, the stockholders losing everything. Much labor is yet required on the part of the directors to ascertain the character of the assets. A PALSE REPORT ABOUT BURLING BROS.

A rumor has prevailed during the afternoon, which may have gone East, that Burling Bros., one of the most prominent firms of stockbrokers, have failed for \$2,000,000. Inquiry fails to confirm the report. It is true that the firm is affected to the amount of about half a million by the suspension of the Bank of California, but it is believed that they are able to stand it; and it is stated on good authority that Mr. Sharon will back them up if any aid is needed. It was also reported that Burling Bros. had hypothecated stock of the bank with the Savings and Loan Society on Clay-st., which proved to be an over-issue; but the President of the savings bank says there is no truth in the report.

SAN FRANCISCO MERCRANTS HOPEFUL. The election to-morrow begins to engress a large ment as to the resumption of the Bank of California is regarded as an electioneering job, though among business men there seems to be a disposition to be lieve it. Some of the more hopeful express confidence that it will reopen in a few days. The general impression seems to be that if resumption takes place it will not be till after a few weeks. A prominent Front-st, merchant, in an interview this afternoon, gave an encouraging account of affairs among the mercautile public. No failures have occurred among them, and none are anticipated. The brokers also speak hopefully of the condition and feeling. They are generally cheerful and confident. As indicative of the feeling in stocks, private transactions have been made within the following figures: Ophir, 40@43; Mexican, 1612; Crown Point, 24; Yellow Jacket, 63; Belcher, 18@20; Consolidated Virginia, 225; and California, 50. The Merchants' Exchange and National Gold Banks still remain

amount of \$2,156.

THE LAST GOLD TRANSFER.

Washington, Aug. 31.-The Treasury Department so far reconsidered its determination not to transfer any more gold to the Pacific coast to-day as to admit of the transfer of \$50,000 for the benefit of a bank in Portland, Oregon. The amount was transferred to San Francisco. Treasurer New says that this will be all that can be transferred.

WALL STREET COMMENTS ON THE FAILURE. The early reports from San Francisco yesterday morning took an opposite turn from those of the preceding day. Various rumors were put in circulation on the Street, all of which tended to show that the Bank of California was in a solvent condition. \$21,000,000, while the liabilities figured in each case from \$1.000,000 to \$6,000,000 less than the assets. These reports, however, were generally disbe-lieved. A prominent banker remarked that, after a long experience, his observation went to prove that the first rumors in cases of failure, like that in San Francisco, were most to be trusted, and when there was any great difference between this and the final statement it was almost always found that the assets were not as large as at first supposed. He placed no credit in the rumor that the directors of the Bank of California contemplated making up any deficiency which they may find to

exist and continuing business under the old charter.

No further news of special interest was received during the day at the office of Laidlaw & Co., on Pine-st. Three new attachments were issued yesterday by Judge Brady. in Supreme Court, Chambers, against the property of the Bank of California. The first was in the suit of James G. Harper and James H. Gendley, who purchased or Aug. 19 a draft of the defaulting bank on the Oriental Bank of London, which was protested for non-acceptance. The claim in this case is for \$15,000, gold, with Summed J. Gower and Emma M. Thibaut, the first for 89,581, the second for \$8,354, for moneys deposited with the bank.

At the office of J. & W. Seligman & Co., Mr. Seligman

the bank.

At the office of J. & W. Seligman & Co., Mr. Seligman stated that he had seen a private dispatch yesterday marning, from what he considered a trustworthy source in San Francisco, saying that no definite conclusion had been reached by the directors of the Bank of Cultiornia, and taey would wait natid after the excitement had subsided before deciding what course was best to fake. Information was received from the Merchants' Exchange Bank of San Francisco by their agents in this city. Komitze & Co., at No. 12 Wall st., that the assets of the bank are over \$6,000,060, while the limbilities are less than \$1,000,000. Mr. Komitze said the bank was in good, conservative hands, and he thought they would decide to resume business again in a very few days.

THE LEE & SHEPARD FAILURES. PRIENDLY FEELING TOWARD THE SUSPENDED FIRMS

-A RESUMPTION URGED AS SOON AS POSSIBLE. The feeling in the book trade, in New-York as well as Boston, is universally in favor of leading every assistance to Lee & Shepard, and Lee, Shepard & Dillingham, in resuming business. Mr. Shepard arrived in town yesterday morning and visited several of the larger creditors. He had hardly expected to meet here the sympathy which had been expressed in Boston for the publish-ing house, but he was everywhere urged to go on with as

THE PANAMA AND PACIFIC MAIL COMPACT. THE AGREEMENT FOR THE JOINT WORKING OF THE COMPANIES RATIFIED.

The Panama Railroad Company and the Pacific Mail Steamship Company ratified yesterday the agreement for the joint working of the companies, on the basis previously reported in THE TRIBUNE. A conference was held by the representatives of the companies, George S. Scott representing the Pacific Mail, and Trenor W. Park the Panama Railroad. By the terms of the agreement the business of both companies, comprising the earnings on freight and passenger carriage, is to be divided. Of the business to California, the Panama Company is to receive one-fourth and the Pacific Mail three-fourths. The Central America business is to be divided so that the Panama will receive one-third and the Pacific Mail twothirds. The business to Panama is to be divided equally between the companies. The agreement is for five years, dating from March 1, 1875. The agreement covers over eight pages of legal cap, and includes minute details of the work of the companies. Among other things, the Panama Company agrees to make repairs to the steam-snips of the Pacific Mail Company at its shops in Panama and Aspinwall at cost prices. Regulations are also inscried as to the conveyance of various articles, such as

Trenor W. Park, the President of the Panama Railroad Company, was visited by a reporter of THE TRIBUNE yesterday. Mr. Park said that the contract just made wa for the benefit of both companies. They had been pulling in opposite ways, to they joint detriment, but now they were going to pull together. Judging from the results of the past six months, the Panama Radroad would earn this year 16 per cent on its capital through the agreement. The former contract between the companies was in operation for about one year, ending last March. At a meeting of the directors of the Panama Radroad Company, held on Wednesday last, he had been authorized to make any agreement he saw ift, on behalf of the Company, with the Pacific Mail Steamship Company. Mr. Scoth, the Vice-President of the latter Company, had represented in in the conference, and his action was ratified by the directors of the Pacific Mail Company at their meeting held after the signing of the agreement. The Panama Company had also authorized Mr. Pars to extend the time of pryment of the Scot,000 loaned by the Company to the Pacific Mail Company. The time of payon in had expired on Monday, but was extended by Mr. Park for one year. for the benefit of both companies. They had been pulling

A reporter of THE TRIBUNE visited Paterson last evening and called on John B. Van Biarcom, President; G. G. The principal items composing this sum are as follows: Capital \$60,000; first mertgage bonds, \$80,000; second mortgage bonds, \$60,000; third mortgage bonds, \$50,000; a floating debt estimated to be about \$20,000. The assets consist of the market property, which originally cost over \$200,000, but which it is believed, if sold at peremptory sale for the benefit of the first mortgage bondholders, will not realize more than sufficient to pay them with accrued interest and costs, sharge of the public attention. INTEREST ON ERIE BONDS. PROBABILITY THAT PAYMENT WILL BE MADE ON

THE FIRST, SECOND, THIRD, FOURTH, AND BUF-PALO REANCH MORTGAGES. Inquiry was made at the office of the Erie Rail-

way Company yesterday by a reporter of THE TRIBUNE in regard to the payment of interest on certain bonds of the Company which falls due to-day. Treasurer Sherman stated that the receiver had been authorized by the Court to pay the interest as it matures on the first, second, third, fourth, and the Buffalo Branch mortgages, but that he had been enjoined from paying any interest on bonds of a later issue than those named. Amand the latter are included the first and second consolidated mortrages, which are represented by the Farmers' Loan and Trust Company. The Enfalls Branch mortrage is a first mortgage on that branch of the road.

Interest amounting to about \$250,000 falls due to-day on the second and third mortgage bonds, and Mr. Sherman said ne had no d subt that it would be paid, but, as he mad received no instructions from Mr. Jewett on the subject, he was unable to say positively whether it would be paid to-day or at some other time. He intended to visit Mr. Jewett, whe is still mable to come to the office, in time to be prepared with an answer upon the subject by this morning. he had been enjoined from paying any interest on bonds

PROPOSED DISCUSSION ON THE NATIONAL CUR-RENCY.

UNION ADAMS & CO.'S SUSPENSION.

It was impossible yesterday to gain much information in regard to the failure of Union Adams & Co., wholesale and retail dealers in gentlemen's furnishing goods at No. 913 Broadway. Mr. Adams stated that he had made an assignment to E. H. Wootton of this city. he had made an assignment to E. H. Wootton of this city, but he was not as yet prepared to give any information in regard to his assets or liabilities. He hoped, however, to be able to give a full statement in a few days. At his establishment an account of the stock is being taken, preparatory to making the statement. Nothing could be learned as to the causes of the fathere from prominent dealers in the same line of goods, atthough some thought that Mr. Adams had been crippled some time since by the fatiure of the bank of which he was President.

independent. Nothing authoritative can be stated of the condition of the Boston house until later in the week. The confidence in its ability to go on is however general; several houses have offered to fill any orders received from either house, and one New-York publisher forwarded yesterday two lots of goods, declining to ask any protection for the bills.

The paper makers, stereotypers, and bookbinders, who are the principal Boston creditors, are all reported to be friendly to the firm, and able to withstand the shock; while the New-York branch house is chiefly indebted to publishing houses for stock purchased, as all the publishing houses for to be properous authors' accounts to balance, which require time for their adjustment, it will probably take a longer time to prepare a statement of the Boston house time of the branch in this city. Lee, Shepard & Dilling ham filed yesterday a new assignment to John H. N. Glassford of the firm of James Glassford & Son, wholesale fancy goods dealers. Mr. Glassford and the owner of the building occupied by Mr. Pitts are the principal creditors. The assignment stated to a reporter of THE THIRUNE that the liabilities of Mr. Pitts would probably prove to be not more than \$15,000, and the stock at present on hand is worth about \$8,000. He thought, also, that this was the extent of Mr. Pitts assets. Friend Pitts has been engaged in retailing fancy goods for a number of years, and bas been prosperous a marked depression in this branch of trade.

THE FAULHABER INQUEST.

The inquest in the case of Casper Faulhaber was resumed before Coroner Reinhard at Hoboken last night. The first witness was Justice Joseph Warren, who testified that he sold Faulhaber's house July 15. The house was sold for one-half cash, and \$502 50 was paid as 10 per cent on the purchase money. The property sold for \$5,025, and was subject to a mortgage of \$5,000, and \$600 assessment. John Kechline testified that he and \$600 assessment. John Keebline testified that he played cards with Mr. Faulhaber on the day of his disappearance, and remembered seeing a strange man standing near the table where they were playing; he was dressed in gray; he followed Mr. Faulhaber out after the games were over; witness said he understood that Faulhaber had a large amount of money in his pocket, but did not see it. Joseph Faulhaber, a son of the deceased man, was next called. He said that he went with his father to Mr. Collins's office on Saturday, Aug. 16, to see certain claims against the property settled; the deeds were transferred and the cash was paid that day.

AN INFANT'S BODY FOUND IN A TRUNK. ALBANY, N. Y., Aug. 31 .- On the 5:30 p. m. train from the West this evening were a man and woman who gave the baggageman at the depot a check for a trunk marked "J. M., New-York," requesting that it be shipped to that city. On finding the trunk, a peculiar odor was noticeable. It was opened, and was found to contain the dead body of a new-born infant. The trunk was held, and a coroner notified, who will investigate the matter. The man and woman are supposed to have proceeded to New-York.

THE FIRE RECORD.

DESTRUCTIVE FIRE IN BROOKLYN. LOSS OF PROPERTY OVER \$150,000, NEARLY COV-ERED BY INSURANCE-NEGLECT OF A SLEEPY NIGHT WATCHMAN.

A fire which involved a loss of more than \$150,000 broke out about 3:20 a. m. yesterday in the four-story brick building occupied as a paint factory by Baxter, Beil & Co. at Jay and York-sts., Brooklyn. The firemen responded promptly to the first alarm, but the flames spread so rapidly that Chief-Engineer Nevins ordered a second and a third alarm to summon all the available reserve force for the protection of the surrounding property, which was menaced with destruction. The building was enveloped quickly with fire, and the walls soon fell upon and crushed the roof of a brick and wooden stable of Leavy & Keaney's brewery in the rear, at Jay and Front-sts.

The flames then communicated with Henry Breslin &

Son's coal sheds and the corroding sheds of Hall. Bradley & Co.'s white lead works at Nos. 160 to 172 Front-st., which were padly damaged. The roof of the Roman Catholic Church of the Assumption ignited from a spark, but the flames were promptly extinguished. Hamilton H. Bioomfield, age 7, of No. 102 Yorkst., was injured fatally by the falling of a ladder which the firemen were removing from the Church of the Assumption. Baxter, Bell & Co. estimate their losses as follows:

IN FLUSHING, L. I. A large barn on the premises known as the mart Estate, en Jamaica-ave., in the town of Flushing. L. L. was discovered to be on fire about 12:30 a. m. on Sunday, and was entirely destroyed, together with s small dwelling and several outbuildings. The buildings were owned by Tousey & Spooner of New-York, and the barn contained a quantity of hay belonging to Charles Coilins. The less on the buildings is about \$3,000; in-sured in the Home Insurance Company for \$2,000. Mr. Collins had about \$0 tons of hay, a wagon, and a cider press destroyed, on which there was an insurance of \$1,500. The fire was thought to be the work of an in-
